

Putting on a mask, for example in a shop or on public transport, has already become automatic for some and it happens without thinking. For others, putting on a mask is not automatic at all, but requires conscious thinking and effort.

Using a face mask

Taking a mask with you to a store or public transport, for example, has already become automatic for some and is done without thinking. For others, taking a mask with them is not automatic at all, but requires conscious thinking and effort.

Who thinks you should use a face mask and who thinks not? In the following questions, by using a face mask, we mean folding a cloth or disposable face mask, surgical mask, or respirator on the face so that it covers the nose and mouth. The questions concern leisure time. My family and I have discussed it.
